

Consilienta

Advancing biopharma innovation
through regulatory science

Bridging experience with innovation

- Blend of ex-regulatory, industry, consulting and academic experience
- Broad consulting experience from small biotech startups to large pharmaceutical corporations
- Agile, attentive and tailored support with personalized service and a partnership that truly understands your needs
- Broad coverage of product class & disease types
- Ample experience with a range of emerging technologies and medicines
- Novel approaches with out-of-the-box solutions

SMART BIOPHARMA SOLUTIONS

Regulatory Strategy

Strategy and Planning,
Orphan and Pediatric,
Due Diligence,
Training and Coaching,
Embedded Regulatory Function.

Drug Development

Advice on Manufacturing,
Nonclinical and Clinical
Development Plans,
Translational Liaison
Service.

Agency Interactions

Scientific and Regulatory
Support, Scientific Advice,
Dossier Preparation,
EU Regulatory Agent
Services.

Classification and Designation

Product Classification,
Expedited Development
Programs, New
Active Substance
Assessment.

Safety

Microbial and Viral Safety,
Material of Animal and
Human Origin,
GMO and Risk
Assessments.

Innovative Medicines

ATMPs,
Biologics/Synthetics,
Innovative Small Molecules,
Combination Products,
Individualized Therapies.

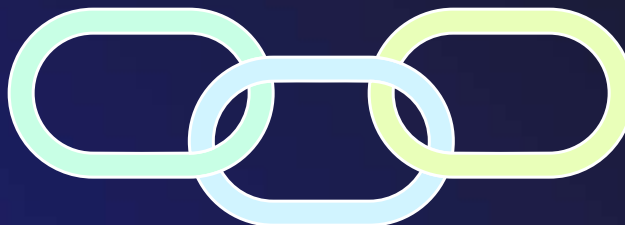

FOUNDING MEMBERS

Dr. Elena Meurer
co-founder & principal consultant
managing director

Elena brings 25+ years of academic, industry and consulting experience. She provides strategic, CMC and regulatory consulting for products in all development stages and for various regulatory regions. Elena has supported several MAA and BLA preparations and national hospital exemptions. She guided companies in obtaining GMP manufacturing licenses and establishing CDMO activities. Elena also contributed to projects aimed at establishing high regulatory standards in third countries and provided training to relevant regulatory agencies
